FITZPATRICK

FITZPATRICK LCS ROLLER COMPACTOR

LOW-VOLUME BENCHTOP SYSTEM FOR R&D & TRIAL BATCH PRODUCTION

Scalable benchtop, high-performance dry granulation from the most trusted name in roller compaction technology for more than 70 years.

Fitzpatrick LCS

- Ideal for proof-of-concept work or for smallest volume production
- Manufactured with Fitzpatrick high-precision, twin feed screw system
- 20 kN / cm roll pressure equivalent to production-scale systems
- Complete disassembly of all contact parts enables thorough cleaning that is quick & easy
- Touchpad control of all independent feed & compaction variables
- Consistent compaction mechanism ensures easy scale-up to larger production machines
- Design optionally available for containment systems
- Design optionally available for containment systems
- cGMP software option
- Choice of roll surfaces

Fitzpatrick is committed to improving the performance and profitability of our customers' powder processing operations.

We continually invest in customer-driven innovative solutions and provide long-term global support via our highly technical customer service and spare parts network.

Fitzpatrick's LCS processes powders in the same way as larger production-scale systems. This ensures your development projects can progress to production with confidence.

Fitzpatrick offers multiple roller styles for maximum flexibility.
