Just like our vertical storage tanks, Assmann cylindrical horizontal tanks (IHT, AHT) are molded with your choice of virgin high-density cross-linked polyethylene or FDA-compliant linear polyethylene. Both are more corrosion- and chemical-resistant than fiberglass, stainless steel, and mild steel.

- **Semi-translucent and seamless**, with gallon markers and access openings built-in
- **Narrow tank diameters** save space in your plant
- **Choose from a variety of sizes**, configurations, colors, and accessories to fit your needs
- **Horizontal stands include** epoxy primer and top coat

Free-Standing Horizontal Leg Tanks

Free-standing horizontal storage tanks (IHFS) have molded-in legs, requiring no steel cradle support.

- **Semi-translucent and seamless**, with gallon markers and access openings built-in
- **Molded-in legs** eliminate the need for steel cradles
- **Narrow tank diameters** save space in your plant
- **Choose from a variety of sizes**, configurations, colors, and accessories to fit your needs
