FLEXSIFT®

SECURITY SCREENING AND DE-AGGLOMERATION TECHNOLOGY

QUADRO FLEXSIFT®

Security Screening- paper, string, plastic,
wood, metal, foreign objects

Deagglomerating- Before and After

THE CHALLENGES

- Ensure raw product is safe from foreign material and lump free
- Screen without reducing capacity, keeping inline, reducing footprint, reducing dust and noise

FlexSift® Benefits

- Replaced hammermill with H²⁰ High Energy Comil following successful on-site trials
- Produced a more effective blush finish, allowing manufacturer to use less color ingredient
- ROI: machine paid for itself in months.
- H²⁰ takes 75% less time to process each batch
- Reduced cleaning times by hours
- Provided excellent smear tests – passing both color and look objectives in a single milling pass
- cGMP design, contained milling, with available WIP or CIP capabilities
